

# Three-Year Rolling Strategic Plan: 2022-2025

## Strategic Priorities

Year 1 2022-23	Year 2 2023-24	Year 3 2024-25
-------------------	-------------------	-------------------

### Clinical Management System (CMS)

**Lead: Brenda Jameson**

Continue implementing the CMS roadmap resulting in the paper patient chart no longer being relied on for care services: integrating medications dispensed in BDM pharmacy system with the provincial Pharmacy Information Program, interfacing Medical Oncology and Radiation Oncology and drug-CPOE.

### Models of Care

**Disease Site Group Enhancement/Disease Site Clinics**

**Leads: Dr. Sunil Yadav and Dr. Haji Chalchal**

As part of the model of care work, we will design, build, and implement disease site clinics while also furthering the development of disease site groups.

**Virtual Care**

**Lead: Denise Budz**

As a model of care enabler, we will design and implement a virtual care program.

### Data Analytics Strategy

**Lead: Riaz Alvi**

Establish a strategy to manage Agency data (governance, storage, security, quality and use) to support data-driven activities including quality, outcome measurement, research, and decision support, and ensure that the Agency is in alignment with the health sector data use and analytics strategy.

## High Operational Priorities: 2022-23

### CAR-T

**Leads: Dr. Mark Bosch and Shauna Houshmand**

Create a provincial, FACT-accredited, adult Chimeric Antigen Receptor T-Cell Therapy (CAR-T) program in Saskatchewan.

### Lung Screening and Prevention

**Lead: Cheryl Whiting**

Establish a new provincial program for lung cancer screening.

### Research Support Program

**Leads: Dr. Shahid Ahmed, Riaz Alvi, Lynn Dwernychuk**

Build a research support program and structure that supports and elevates cancer research at the SCA and helps to obtain sustainable funding.

### Saskatoon Patient Lodge

**Lead: Bryan Jorgensen and Ryan Cockwill**

Sustaining patient lodge services in Saskatoon.

### SCA Re-Branding

**Lead: Lisa Adam**

Finalize the re-brand to increase awareness of the SCA as an independent health organization that manages cancer treatment, early detection, prevention and research for the province.
